

Langkah – Langkah Penggunaan Form Pertambahan

1. Input angka pertama dan angka kedua terserah mau berapa, dan klik tombol tambah.

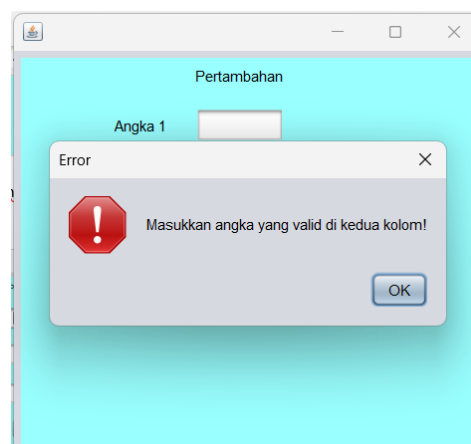

The screenshot shows a window titled "Pertambahan" with a light blue background. It contains three input fields: "Angka 1" with the value "12", "Angka 2" with the value "34", and "Hasil :" with the value "46". Below the input fields are three buttons: "Tambah", "Hapus", and "Keluar".

2. Klik hapus maka field nya akan terhapus semua, dan akan focus ke field 1 menggunakan event request focus.

The screenshot shows the same "Pertambahan" window, but all input fields are now empty. The "Angka 1" field has a blue border, indicating it is the active field. The "Hapus" button is visible below the input fields.

3. Contoh error handling: saat field masih kosong maka akan memunculkan pesan error.

The screenshot shows the "Pertambahan" window with an error dialog box overlaid. The dialog box is titled "Error" and contains a red exclamation mark icon. The text inside the dialog box reads: "Masukkan angka yang valid di kedua kolom!". There is an "OK" button at the bottom right of the dialog box. The "Angka 1" field in the background is empty.
